## FASCISM COLLAPSING **Europe's Revolution has Begun**

MUSSOLINI IS GONE. FASCISM IN ITALY IS DEAD. THIS FACT HAS FILLED WITH REJOICING THE MASSES OF WORKERS AND PEASANTS IN ITALY. IT WILL BE GREETED WITH JUBILATION BY THE WORKING CLASS THROUGHOUT THE WORLD. THE FALL OF MUSSOLINI IS THE FIRST OF GREAT EVENTS THAT EUROPE AND THE WORLD WILL SEE IN THE COMING YEARS. IT MARKS THE BEGINNING OF THE REVOLUTIONARY UPSURGE IN ALL THE COUNTRIES OF EUROPE. HITLER CAN SEE IN THE FATE OF MUSSOLINI THE FOR ESHADOWING OF HIS OWN DOOM.

AUGUST, 1943.

The capitalist press in Britain and America has hypocritically greeted the fall of the tyrant, Churchill has hurled epithets at Mussolini. But we remember the paeons of praise he bestowed upon him in 1927, when in a press interview he said how "charmed" he was, "by Signor Mussolini's gentle and simple manner, and by his calm detached poise in spite of so many burdens and dangers." We remember also how he praised Italian Fascism for "the service your movement has rendered to the whole world."

In spite of their hypocritical rejoicing, Allied Big Business looks with watchful anxiety on the developments in the Italian peninsula. Faced with this situation, the capitalists and landowners, the bishops and the generals, the bankers and the monarchy—all who had subsidised Mussolini and his cut throats, who had placed Mussolini in power as a means of protecting their property and privileges, began to look frantically for a means of saving themselves.

The film introduces a new technique in unscrupulous capitalist propaganda. It is a classic example of how a wealthy, demagogic capitalist can sell himself to the public. This technique has more in common with fascism than with political enlightment and truth.

In the United States the outstanding liberals and socialists, together with the Socialist Workers' Party have raised their voice in a strong protest against this false film and its vicious against this false film and its valous distortion of the ideas and life purpose of Leon Trotsky. Not so in Britain. Apart from the Glasgow "Forward", the so-called socialist press has re-mained silent or justified the film. So also with the bulk of the liberals. Certainly there has been no honest protest from these gentlemen who prate their "moral" outlook before the working class. working class.

As a film, it is dull and boring. The only lively and interesting scene is the important section which purports to be a reproduction of the infamous Moscow Frame-up Trials. We cannot close our eyes to the fact that the biggest section of the politically conscious sec-tion of the working class will see this false film. Despite the healthy scepticism towards propaganda films which is common among wide sections of the workers, this vicious film will be used against the revolutionists and social-ists in Britain.

#### SEVERAL MINOR

#### FALSIFICATIONS

Between the book and the film there are a number of important contradic-tions apart from the Moscow Trials.

The film shows Davies and his family sure that I should have been with you from start to finish in your triumphant struggle against the bestial appetities and passions of I coinism." Davies wrote

> . Lav Henderson met us at the border town of Negoreloye . . Henderson, the poor man had eaten some "bad food" (an experience here quite common), the night before and had been pretty sick .

#### In a letter to a friend, he wrote:

"Dr. Bunkley . . . has given us a list of 'don'ts' as to what we should cat and avoid at diplomatic dinners. There is a lot of contagion in foods here. There is no cream save for ice cream, nor vegetables that are safe, so Bullit's advice was helpful in every way, and particularly very sound in suggesting that we bring a supply of food.'

In a footnote to his diary, Davies gives

"Don't eat canned vegetables unless you know they are from the U.S.A. Avoid rare or underdone meats. 'Avoid all sausages.

"Be very careful about fish . . . And his comment: "No wonder the staff here have their

own comunisary for supplies." If this is true of the foodstuffs sup-plied at the Embassies, what hopes that Davies and his family would have had such an excellent meal on the rail-

way canteen. The film portrays Davies as "Mr. Know All". He saw everything that Know All". He saw everything that was to be seen-even to the extent of observing that Russian machinery was bolted down and transportable for war purposes. And what he did not see, obliging American technicians in Rus-sia informed him of; for instance the "sabotage afoot." Read his book. Despite the careful selections of his "despatches" and "quotations" from his diary, he makes no claim to be so well informed. Significant to note, he gives no "quotes" from his diary during the period of the Red Army's invasion of Poland and Finland, although the film shows that he returned to America and observing that Russian machinery was

shows that he returned to America and campaigned for an alliance with Rus-sia, there is no proof for this in his book and it is most likely, on the contrary that he was a rabid anti-Soviet "liberal" during that period 1939-1940, n which he maintains silence in his book

#### THE TRIALS

The main section of the film with which we are concerned here is the frame-up Moscow trials. The principal purpose of these "trials" was to discredit Trotsky in the world labour movement. Davies admits this in his carefully "edited" book. In his despatch dated February 17th, 1937 to the "Honourable The Secretary of State" he wrote that "off the record . . . " the Soviet bureaucrats admit

'that the occasion was dramatised for propaganda purposes. It was designed: first, as a warning to all existing and potential plotters and conspirators (read political oppositionists to Stalin) within the Soviet Union; second to dis-credit Trotsky abroad; and third, to solidify popular national feeling in sup-port of the Government against foreign enemies—Germany and Japan." (Mis-sion to Moscow, Left Book Club Edition, page 38)

In the film the public trials are telescoped into the secret trials of which there exist no records. If we allow a

## FIGHT BEVIN'S THREAT MINERS' CHILDRE

The most vicious proposal to come from the Government since the outbreak of the war was voiced by Ernest Bevin at the Miners Conference. This was the threat to direct boys of 16 to 18 down the pits.

In this statement alone, Bevin demonstrates how completely he has broken with the ideas of Labour and the Trade Union movement. It is the kind of proposal we are used to hearing from the Nazi Minister of Labour, Dr. Ley.

No Tory politician could have made such a proposal at a Miner's Conference without being thrown out of the door on his neck. Instead they. put their lackeys up to do the dirty work for them.

Instead of immediately condemning the proposal, the majority of the miners' leaders including the Stalinist delegates, temporised, and with minor reservations, agreed with the drafting of 16 year olds down the pits.

The proposed measure, has already provoked a crisis in the mining villages. Among the wider sections of the working class there is a bitter hostility to this proposed reactionary measure. Everywhere the workers are discussing it and condemning it in no uncertain terms. Workers will never allow their children of 16 to be drafted into the pits whilst the pampered sons of the ruling class remain at public schools deriving the benefits

## **Capitalist Court Backs** Joe

The case of Joseph McKay versus Joe Hall, president of the Y.M.A., was concluded at the Barnsley Court on July 16th. The miners lost their case. Judgment was given in favour of Hall—with costs.

The case arose out of the strike at Cortonwood pit last year when Joe Hall signed the new price list at that pit without the consent of the local branch. The price per ton of coal in the wages of the miners was reduced from 1/7 to 1/3 by the new agreement.

The case was a test. McKay was really a representative of the miners at the pit. He claimed £45 damages for loss of wages as the result of the strike which he alleged arose from boss class moral pressure is suicide. without the authority of the men.

An end to the coalition with the bosses. Labour and Trade Union leaders must break with the capitalist Government and wage a campaign for power on the following programme:

- 1. Immediate despatch of arms and material to the Soviet Union under the control of the Trade Unions and factory committees.
- 2. Nationalisation of the land, mines, banks, transport and all big industry without compensation.
- 3. Confiscation of all war profits-all company books to be open for trade union inspection.
- 4. Workers' control of production to end chaos and mismanagement in industry to be exercised through workers committees.
- 5. Equal distribution of food, clothes, and other consumers commodities under control of the Co-ops, committees of workers elected from the distributive trades, factories, housewives committees and small shopkeepers.
- 6. A rising scale of wages to meet the increased cost of living with a guaranteed minimum.
- 7. Repeal of the Essential Works Order and all other anti-working class and strike-breaking laws.
- 8. Clear out the reactionary pro-fascist officer caste in the Army and Home Guard. Election of officers by the soldiers. Trade union wages for all workers in the armed forces.
- 9. Establishment of military schools by the Trade Unions at the expense of the state for the training of worker officers.

## Our Programme for WORKERS DEMAND SOVIET MILLIONAIRES T.U. INSPECTION OF AND THE **DETENTION BARRACKS**

M. LEE

The evidence brought to light by the death of Rifleman William Clayton which resulted in the verdict of manslaughter against two military police, revealed such brutal and barbarous treatment in the army detention camps, that the Government has been forced to set up an Investigating Com-

mittee into detention barrack conditions. Composed of three representatives Composed of three representatives of the ruling class, the worker soldiers can expect no radical changes from such a committee. Even if at best some minor reforms are made as a result, there will be no change in the Detention Barrack system, which is designed to crush the spirit and in-dependence of the rank and file soldier. The invastigations are to be held The investigations are to be held in private, and since there can be no question of "aiding the enemy" by having an open and public investiga-tion, it is obvious that this is designed to have the fasts from the public cretion, it is obvious that this is designed to keep the facts from the puble eye. The nature of the evdence which such an investigation would bring to light would arouse widespread public in-dignation which would demand not minor reforms but a fundamental the ranks of the working class and a distrust in the capitalist machinery for "investigation" can be seen from

the following: At a public meeting held under the auspices of the Urmston Labour Party, the following resolution was passed:

"That this Public Meeting of the people of Urmston requests that the Government will take steps to amend that portion of the King's Regu-lations as applied to Army Detention Barracks.

We demand that Visiting Committees, democratically elected by the soldiers be formed to take the place of the Inspection Committees now under the jurisdiction of the War Office."

A motion was tabled at the Notting-ham Trades Council by A.E.U. Central and No. 14 Branches;

"That Council expresses its com-plete hostility towards the brutal practices against prisoners in Military Detention camps; the recent revelations in the press of illegal practices are now brought sharply to the foreground by the death of Rifleman William Clayton, the in-quest upon whom has demonstrated that he was suffering from physical

violence at the hands of his jailers. This demands a complete investi-gation into the conditions at these Military Detention Camps by an elected delegation of Trade Union-ists, and setting up of a permanent representative of the organised workers to protect the interests of our members in the Armed Forces, and to investigate all complete set and to investigate all complaints of bad conditions and mal-administration.'

tion." These resolutions represent the true spirit of workers throughout the country. They must be supported and publicised throughout the Labour movement. It rests upon the Labour movement to protect the interests of the workers in these detention camps. The workers must demand that the Labour and Trade Union leaders set up a commission of inquiry, which would have the right to visit and in-spect all military detention barracks at any time without restriction, and that they should have the full right to discuss with the prisoners without the presence of the prison authorities. The Government and officer caste will object to such a procedure but the organised labour movement has a duty to the workers in the forces. They used demonstrate their solidenity and economic development, can be seen in the columns of the 'Daily Worker'. In the July 13th issue, Reg Bishop writes under the sub-heading 'Soviet Milloreice.'' Millionaires' shudder." "... First, a rouble millionaire is very far from being a sterling milflonaire. Secondly, the accumu-lations of a Soviet millionaire have been gathered together entirely without exploitation of any kind, solely as the result of personal lab-our, or more probably, the joint labour of a family over many years." No worker considers it "immoral" for any section of the working class or peasantry to increase its standard of to the workers in the forces. They must demonstrate their solidarity and show the workers in uniform that the labour movement will protect them. In this way a genuine link will be forged between the workers and the the hopes of a future working class of the hopes of a future world of pros-perity for all the toilers and oppressed that the Soviet Union received such nen in uniform

quiring this wealth is on the "free market" or the Black Market where the prices of commodities are nine times higher than those on the controlled market. And since the only rationed goods in the Soviet Union are butter weat and cortain for the In the past the Stalinist propaganda has been directed at convincing the workers of the world that equality for are butter, meat and certain fats, the workers are forced to pay enormous prices on the free market, which was all exists in the Soviet Union. Today, Stalin is bringing to the fore all the prices on the free market, which was legalised as a concession to the peas-ants. According to Walter Graebner, "Daily Mail" correspondent, it is not infrequent that one sees honey dis-played in the open market at £10 per lb., scraps of meat cut from evil look-ing carcasses being grabbed at £4 per lb., eggs selling at 12/- each, and milk at 21/- a cup. All these things are beyond the means of the Soviet average worker, whose sole diet is black bread and potatoes. similarities between the Soviet bureaucracy and the capitalist class, in order to convince the capitalist "allies" that the Soviet Union represents no danger the Soviet Union represents no danger to the capitalist system. To give one example, Alexander Werth, "Sunday Times" special corre-spondent who is extremely sympathetic to the Soviet regime writes: "... There are already million-aires in the Soviet Union. For ex-ample in Karakhetan the Chairman ample, in Kazakhstan, the Chairman of the Karl Marx Collective Farm subscribed his own and his families

If, according to the Stalinists, the accumulation of wealth in the Soviet Union is acquired solely due to per-sonal labour, how account for the enormous personal savings of the priests who have received the blessings of Stalin for the vast fortunes they have been donating to war funds? Stevanov, Priest of the Usnensky

have been donating to war runds: Stevanov, Priest of the Uspensky Church is reported to have donated "all my private savings in cash, total-ling 273,000 roubles" (Pravda 4/1/43) or Vvedencky, Pirst Priest of the Or-thodox Renovated Church of the U.S.S.R., handed over "my property, valued at over roubles." (Pravda 7/1/43). Th private 500,000 but a few! Reg Bishop will be telling the "Daily Worker" readers next that the priests have earned these savings by the blood and toil of their labour!

When concessions were made to the peasantry by Lenin these concessions were called by their right name: con-cessions to capitalism. Far from these having been eliminated under the leadership of Stalin, more and more concessions have been made to capital-ist tendencies at the expense of socialist tendencies at the expense of social-ist economy. Unless this course is altered; unless the workers of the altered; unless the workers of the Soviet Union re-introduce the Soviet democracy and overthrow the bureau-cracy which rests on the privileges of the few; unless a return is made to the original formula of Lenin and Trotsky: that no sections or officials of the community shall provide income higher than the average worker, all that has been achieved by the October Revolution will be lost and there will revolution will be lost and there will arise in Russia once again capitalist property relations. Because national-ised property still remains as the basic conquest of the Revolution. The Foriet Union must be supported in spite of concessions that have been made to capitalism.

An exposure of the cynical indiffer-

Nowhere is the class character of Nowhere is the class character of the existing system more clearly re-vealed than in the sharply different treatment which is meted out to the servicemen and their wives on the one hand, and to the generals, admir-als, etc. on the other. Even the small concessions granted, camouflaged under a show of the customary diplo-matic language, are subject to "conmatic language, are subject to "con-ditions", "buts", and "ifs", which make the increases even more microscopic than they first appear. The manner in which they treat the widows of Field Marshals, Admirals and R.A.F. Marshals, stand in vivid contrast to the niggardly treatment of the "lower orders" whose widows are separated into "capable" and "incapable of self-support" classes. The widow of a Field Marshal in the Army now receives £700 a year, approx. £13 10s. a week, which is an increase of nearly £1 a week, and equivalent to the total pension granted, to the widow of an ordinary serviceman who is "not incapable of self-support" and which is an increase of exactly 2/6d. per week. If the widow is incapable of self-support and has, say, one child, she receives 36/2d., a princely increase of 1/8d.—and this includes payment of rent not exceeding 8/- per week! of rent not exceeding 8/- per week! If we deduct the 8/- allowed for rent,

ence and contempt with which the Government treats the soldiers and men in uniform injured through war service, and their dependants if they are killed, is vividly demonstrated in the miserly concessions contained in the Government's White Paper on War Pensions, just published. Nowhere in the other four put together and a gratuity of £70 is granted for such a loss whilst only £47 is granted for the loss of four toes, (£19 if only one joint is affected), and the officers, evidently being constructed of better ''class' material, are worth exactly twice as much, and receive £140, £94 and £38 respectively for the same injuries. It need not be stressed that the worth of a finger or a toe to a worker, forced to work for an existence, is infinitely more than to an officer drawn

If the recent statement of the Admiralty on disputes in the shipyards had been open and precise, the full onus for the many strikes occurin this industry should have been placed squarely on the shoulders of the employing class. Instead, this governmental service of the capitalist class is just shifting the blame from Sirs the employers to make it appear as if the responsibility rests on both sides.

Here is a dispute which is typical of many, and is a counter-blast to the Admiralty point of view.

Brother Haggerty, a hard working and militant shop steward in the sheet-iron department of a Glasgow shipyard received a dismissal notice as being redundant labour. On hearing of this the workers made a protest, understanding it rightly as sheer victimisation. Only a week previously a list of 22 men had been posted as redundant labour. On the following week another list appeared with only 2 names, Bro- Haggerty and another worker.

A full meeting was called on the job. The deputation of four went to the management but obtained no satisfaction, with the result that it was decided to hold a protest strike for half a day (July 6th). About 200 skilled men and helpers took part. This stoppage was very effective. The National Service Officer due, most likely, to this pressure stated that the firm was in the wrong and told Bro. Haggarty to carry on at work.

Tempers throughout the yard were in the meantime rising at the lack of a settlement by the management. The Shop Stewards' Committee made a protest at the reactionary attitude of the firm. As further action from the workers seemed most likely, a conference was held with the union representative present and the employers side. A right about turn was made by the boss with a new excuse stating that Bro. Haggerty was slow on the job. As this allegation was shown to be downright nonsense the victimised worker had to be retained.

Shipyard workers do not have to be told as to who is responsible for industrial strife. Only by a strong workshop organisation and a militant lead- as soon as their purpose is served. ship can the workers safeguard their rights and to go forward to attain better rates and conditions on the job.

#### I quote rather in extenso from the omments by Reg Bishop in Worker's Notebook. (Daily Worker, 15.7.43.).

"The food situation in India has become quite serious . . . and the Communist Party have been organising People's Food Committees. . . . In many centres the Committees have been able to prevent rioting and looting by compelling the authorities to prosecute the offenders, and in Calcutta alone as a result of their activities, 185 cases of black market or hoarding were sent for trial during one recent week.

To the ordinary persons these activities seem highly praiseworthy . . but there are some in India who would like to reimpose it (the ban of illegality on the Communist Party) now that the danger (of Japanese invasion) seems to have receded.

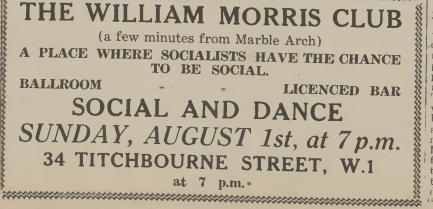

The kind of action, which the Communists have undertaken, has been of enormous value to the War effort.'

(My emphasis and interpolations in brackets).

It is obvious that the Communist Party in India are now acting as treacherous spies and counter-revolu-tionaries. That the Party, once established by Lenin, could descend to such an unspeakably low and mean level is a matter of extreme regret and of undying shame in workingclass history.

It is obvious as well from the concluding remarks above that the British rulers in India do not at all feel grateful and, will cheerfully cast the Communists off as orange peels Treachery acts like a boomerang.

Yours faithfully, Caliph Abu Bekr.

### **EDITORIAL The Future of Europe**

Mussolini has gone. Like the bullfrog in Aesop's fable, the most boastful and inflated figure in European history has burst. Together with Mussolini, Italian fascism is departing from the scene "not with a bang, but a whimper."

Badoglio is being thrust forward as the Italian Petain. The Governments in London and Washington are no doubt being deluged with applications from the Italian brand of Quislings.

But beneath the shifting of personalities, class forces are at work: undermining the old regime, cementing the forces for the

At the top, the same disgusting scenes are being enacted in the Italian capitalist camp as in France of 1940. The venue is different, but the play remains the same. Below, the beginnings of a popular revolutionary movement similar to that which was to overthrow the Czar of Russia in February 1917 and prepare the basis for the October Revolution, has begun.

HAVING DRAWN THE NATION INTO THE PRESENT DISASTER, INCAPABLE OF INTRODUCING A PROGRAMME WHICH CAN ROUSE THE ENTHUSIASM OF THE POPULAR MASSES, FACED WITH THE POSSIBILITY OF A POPULAR REVOLUTION, THE ITALIAN CAPITALISTS, TRUE TO THEIR CLASS, PREFER TO SELL OUT TO THE "FOREIGN ENEMY."

The British and Yankee capitalists may not do a deal directly with Badoglio and the King. They may seek a more "popular tigure who has not been so compromised with tascism - some figurehead, more acceptable to the liberals and social democrats in the democracies. But whatever steps they take, whatever bloc they lean upon, they will not succeed in staving off the inevitable mass revolutionary movement of the Italian workers and peasants. Mussolini collapsed because of the rising tide of proletarian revolution.

In Bulgaria and the Balkan countries as a whole, the collapse of the Fascist regime in Italy will have profound effects. Already the workers of Sofia have demonstrated in thousands against the war. The peasants have given ample evidence of their desire for peace and a reckoning with the rotten ruling strata. Daily the police are meeting death in political clashes with the revolutionary workers. If not today, then in the very near future, the Balkans will also be in the flames of revolution. In France and even in Germany itself, the collapse of the tyranny of Mussolini will be understood by the masses as the beginning of the end.

But what do the Governments of Britain and America offer to replace the foul regime of Fascist capitalism which is crumbling? Only guarantees that private property will be protected and the introducing "after a suitable period " of Parliamentary democratic forms of government. A programme of demagogy and lies!

In 1918, Italy emerged from the war as a "victor" nation. Weak in economic structure, shattered by the years of war, faced by millions of peasants who were demanding the land, and millions of workers who were seeking some compensation for the death and suffering which the war had brought to them. ITALIAN CAPITALIST DEMOCRACY WAS FORCED TO TURN TO THE PATH OF FASCIST POLITICS AND THE MASSACRE OF THE MILITANT WORKERS AND PEASANTS. How then will it be possible to organise a new "liberal" capitalist democracy when Italy emerges from this war defeated and completely ruined? A new flowering of democracy is impossible in Italy whilst the capitalist system remains the economic mode. Even resting on the bayonets of Anglo-American imperialism, it will be impossible for a defeated capitalism to solve the economic and cultural needs of the Italian people.

The occupation of a large part of Sicily by the Allies has already foreshadowed what precisely American and British Imperialism mean by their pro-jected "liberation" of Europe.

Already in Africa the occupation of the Italian colonies and of Abyssinia has shown exactly what "liberty" was foreshadowed for the colonial peoples. Abyssinia is not independent and its "ruler", Haille Selassie is no more than a pupuet under the control of territories and it is obvious that they have not the slightest intention of handing them over to the control of the native inhabitants. It is sym-bolic of the position that on the heels of the British troops, the Big Banks set up business in the conquered terri-tory, Barclays immediately establishing headquarters in Addis Ababa. All the conquered territory, Eritrea, Abyssin-ia, Libya, Italian Somaliland, was to come under the control of the "Occupied Enemy Territory Adminis-tration" headed by Lord Renfell of Radd who is a partners in the "dam tration" headed by Lord Renfell of Rodd who is a partner in the "demo-cratic" banking firm of Morgan, Gren-

The British mili-tary administration still controls these the defeat in Sicily it was obvious the defeat in Sichy it was obvious enough that the fescist regime which brought the collapse, would vanish from the island. So that this decree merely echoes what had already been irrevocably established. It is obvious that despite the decree "abolishing forwin" all or most of the officials that despite the decree "abolishing fascism", all or most of the officials in Sicily who supported fascism and bled the people with their extortions will be retained and used by the "democratic" Allies. Otherwise they would have evolved procedure for their dismissal and the election of people who genuinely represent the population according to the usual democratic formula. formula.

It is possible that at a later stage, under the supervision of Anglo-Amer-ican bayonets "democratic" quis-lings will be "elected" as Sicily. The Anglo-American imperial. Indee the supervision of inger quis-ists have set up joint control of the area under an administration which has been named A.M.G.O.T. Appar-ently the good "allies" are watching one another's moves in case one de-sires to secure an advantage over the other, and have established a rigid joint control, despite the inconveni-ences of a double rule. Indee the supervision of thigh quis-ists. But the argument that demo-cratic rights will be bestowed later on by the Allied military commanders is obviously false. Elections which take place with restricted freedom, without free organisation of trade unions and

However, AMGOT's first move was peasants' committees, will obviously Anglo-American imperialists as tribute to decree the dissolution of the fascist be unrepresentative and as meaningless for the occupation and to establish as the plebiscites of the dictators. hands of the people. But U.S.-Anglo imperialism intends to see that the politics **they** desire (at least as long as they are capable of deciding events), will be imposed on the people of Europe. As Churchill piously expressed it in parliament: they hope that the people in Italy will turn to "Liberal" politics. But what—as is inevitable—if they turn towards Socialism? U.S.-Anglo im-perialism will help the local capitalists to "correct" their false ideas, by clamping down as they have already clamping down as they have already done

The newspaper reports say that the Allied troops received a welcome from the population in the areas occupied in Sicily. It is clear that the Italian in Sicily. It is clear that the Italian soldiers evinced no great enthusiasm for fighting for a regime that has tortured and oppressed them in bar-barous fashion for 20 years. Anything the Sicilians have said in effect, must be better than the fascist regime. But side by side with the decree forbidding politics—that is the right of free speech press meetings of and the speech, press, meetings, efc., and the right of the people to choose their own Government has come the promise of General Alexander: Your existing per-sonal and property rights will be fully respected."

This is a guarantee to precisely those classes in Sicily and Italy which finan-ced and organised Mussolini and his bands of cut-throats and for whose benefit the fascists ruled and terror-ized the population the landowners ised the population, the landowners and the capitalists. For these are the only ones who have "property rights". Their gesture of dissolving the fas-cists is merely a case of dismissing the Their gesture of dissolving the fas-cists is merely a case of dismissing the hireling who in any case has no sup-port any longer, and protecting the financiers of these same fascists. This coupled with the refusal of any politi-cal rights to the workers and peasants shows exactly where the British and American "democracies" stand. Their armies are to be used as a shield to protect the blood-stained capitalists and landowners who have battened on the toil of the landless peasants and and landowners who have battened on the toil of the landless peasants and the workers who have been deprived of their trade union rights for two

for the occupation and to establish economic dominance for after the occupation.

The occupation of Sicily and the re-gime established there is a mirror of the regime which the Allies intend the regime which the Allies intend establishing in Europe. The place of Hitler's S.S. thugs and Mussolini's gangs are in the calculations of the Allies, to be taken by British and American troops. The same capitalists who have co-operated so loyally with the Nazis and fascists will be pro-tected and kept in control.

But it is obvious that such an out-come will not endure for long. The British and American soldiers are British and American soldiers are fighting for what they believe means the end of fascist tyranny and the liberation of Europe. They have been greeted as liberators by the masses in Sicily and will probably be greeted as such by the people in Europe when they first land. But once the people in these countries begin to see that the fascist tyrants and invaders are merely being replaced with "military" merely being replaced with "military" regimes under the rule of puppets controlled by British and American capitalism and that no fundamental change will take place, their friendli-ness will change to hatred and disgust. The Allied troops will feel themselves facing the same implacable hostility as the German troops are finding in facing the same implacable hostility as the German troops are finding in Europe today. But the British and American soldiers will not stand for this long. They will fraternise with the populations of Europe, including Germany. They will demand that deeds replace words. In the last war Allied troops had to be withdrawn from Germany not because of the "kind-heartedness" on the part of British and French imperialism, but because the French poilus and British Tommies could not stand aside and see the suffering and starvation of the

Of course, they will demand their and for all in a Socialist United States price. The lion's share will go to the of Europe.

## U.S. Trotskyist Paper Deprived of Mailing Rights

In passing the anti-strike bill, Con-gress dealt a blow to the whole of organised labour. This is a culmination

of a series of smaller blows. Yet even now, the trade union leaders, conduct no serious opposition to the capitalist class. These bureaucrats, with the Stalinists bringing up the rear, represent no danger to the bosses. No wonder, then, that in their antiworking class fury, the capitalists and their government direct their blows against the revolutionaries who alone conduct a policy of independent working class action, and represent the future of the labour movement. It is the Socialist Workers Party, the Am erican Trotskyists, who have been the first to suffer the blows of political repression. The Minneapolis Trial, in which the most outstanding leaders of the S.W.P. received prison sentences, rebounded to the credit of the Party: housands of copies of the Court testi mony were circulated as propaganda pamphlets, and the Party received a good deal of press publicity. But the government continues its attacks against the revolutionaries. Without any warning, the first two issues of the "Militant" (the Ameri-can Trotskyist paper) for November 1942, were held up by the post office. In response to enquiries, the publishers were informed that these issues were found to be "non-mailable" and were being destroyed. Further issues were held up for about two weeks and then released: which for a weekly paper is equivalent to suppression. Meanwhile, the suppression extended to the maga-zine "Fourth International", the December 1942 issues being held up and destroyed. After more of this, "court' was held to decide whether the second-class mailing rights of the paper should be revoked. The items objected to exposed the imperialist character of the war, particularly as evinced in the Darlan deal and the prefiteering of Big Business; the Government's anti-labour policy; and the discrimination against Negroes in the armed forces and in industry. Although it was not claimed that the statements of the MILITANT were untruthful and in spite of the fact that to violation of the Espionage Act could be proved, the second-class mailing rights were revoked. This meant that the paper had to go as third or fourth class matter, at much more expensive rates. However, although these rights had been guaranteed, further instances of virtual suppression occurred. The paper was often held up for 2 weeks for "examination". After a protest for "examination". After a protest against this, Post Office solicitor Miles said that the proceedure would remain but if the paper was deposited at the Post Office on a Thursday it would be dispatched on Saturday. The issue of April 3rd was deposited on April 1st;

**By D. JAMES** 

on April 14th nothing had been heard of it, in spite of repeated enquiries. The issue of April 24th was declared "non-mailable" and destroyed. The first news of this attack on the free press brought protests from many left wing and labour normanics

cluding the "New Leader" Republic" and the "Call" the "Nev After the revocation of the second class rights, protests came even from big capitalist newspapers, who saw in it a dangerous precedent, which might bring suppres-sion onto the head of any newspaper daring to criticise phrases of the "Administration's" policy. Thus the "Philidelphia Record" of May 13th: "Grounds on which the 'Militant' has been suppressed by the Post Office department establish a dangerous precedent . . . As the 'New York Times' observed editorially, 'Encroachments on the freedom of the press almost always begin with publications we can do without and affect individuals with whom most of us do not sympathise'." Only the Stalinists welcome the at-tack. As usual, these gentlemen care othing even for the most elementary democratic rights of the working class if they conflict with the interests of heir allies of to-day-Big Business and Ther arres of to-day—Big Business and its government. This issue must be seen as a whole. The attack on the "Militant" was a prelude to a whole series of vicious laws directed against labour. The "Militant" gives the line along which the American Labour movement should retaliate: by building an independent Labour Party, ending the traditional lass to the capitalist parties. And that is why it was suppressed.

Natalia Trotsky on the **Dissolution** of the **Comintern** 

Mexico City, May 22. Stalin's move to dissolve the Communist International makes it "clear to the world that the tradition of the October Revolu-tion and of Lenin and Trotsky is carried on only by the Fourth International," says Natalia Sedov Trotsky in a statement released to the Mexican news-paper, "Excelsior", the Associ-ated Press and United Press.

The full text of the statement by the widow of the founder of the Fourth International follows:

"The formal dissolution of the Third International by Stalin is but the final rite in the slow death of a once revolutionary organisation."

"The Third International has long since ceased to exist as a progressive force in the workers' ered and killed its founders and ideoligical leaders; by means of a constantly shifting but always fallacious policy the Stannist In-ternational led its sections to defeat successively in China, in Germany, in Spain and in France.

"The tragedy of each such de-feat was that it signified the crushing of the labour classes in these countries, the victory of Fascist and Nazi reaction and finally the preparation for the Second World War with its con-Second World War with its con-sequent onslaught against a Sov-iet Union now weakened by the defeats of its working class allies abroad as well as by the legal frameups and murder of the re-volutionary generation at home. A temporary sham democracy must soon give rise to military dictatorship of the Franco character.

But Italy is only the beginning of the dilemna in Europe: forward to socialism and a new culture, or the continuance of capitalism and a barbaric regime of military occupation and the destructure of culture. These are the alternatives.

The war to end fascism is a sham and a trick whilst the power remains in the hands of the capitalist class. Socialists who accept the capitalist programme are treacherously stabbing the European workers in the back.

"Imperialism," wrote Lenin, in 1914, "has placed the fate of European culture at stake. After this war, if a series of successful revolutions do not occur, more wars will follow --- the fairy tale of a 'war to end all wars' is a hollow and pernicious fairy tale."

The superiority of Lenin's Marxist science over the utopian idealism of Labourism and Stalinism has been confirmed by the whole experience of a generation since Lenin died.

The new stage of imperialist antagonisms pose the question of deplorable conditions under which position of further adverse conditions. Europe's culture more imperiously than in 1914. The collapse of Mussolini has begun a "series of revolutions" in Europe.

Against the programme of military occupation, the protection of capitalism and the maintenance of petty reactionary capialist states, Workers' International League and the Fourth International states, Workers' International League and the Fourth International proclaims the fraternisation of the Allied troops with the European the duty time of the transport workers' absence. threatens to become a battlefield. The capitalists feel on their necks the hot breath of revolution.

They feel that the only means of saving themselves and salvaging something from the wreck of fascism is to do a deal with Big Business in the "democracies." Mussolini is no use to them for this purpose. The Italian people detest him and the workers of the democracies would never stand for a deal with Mussolini. For the capitalists of Britain and America it would be too dangerous. Mussolini could not serve the purpose of the capitalists any longer and had even become a dangerous incubus to them. throughout the world. But only if the Italian workers and the workers of Europe and Britain learn the lessons of fascio of Trent broke a strike with the help of an infantry company, and the Belzano Fascio was founded why it was enabled to conquer power.

Italy, although on the side of the victorious powers in the last war, came out of the struggle economically weak-ened. France and Britain seized the lion's share of the territorial gains and left Italy only with desert and un-fertile acquisitions. All the burdens of the war were placed on the shoulders

ism and its wars for profits, markets and raw materials. They had in front of them the example of the Russian workers and peasants who had over-thrown capitalism, and, for the first time in history, had expropriated the apitalists and established a workers' Government.

Immediately that war ended and the Italian capitalists launched their at-tacks on the standard of living of the turmoil in Italy thus:

" In Italy, after the war, there was a real revolutionary upsurge of the masses. Workers and peasants, although they were not mature enough to address themselves to the conquest of power, at least were militant enough to force big concessions. Industrial workers got better wages, the eight hour day, general recog-nition of collective contracts, and a voice in production through 'factory committees'. One strike followed another—1,663 in 1919; 1,881 in 1920. In Genoa and other big seaports, the solidly organised dock workers won out over the shipowners. The steel workers did even better: in September 1920, they broadened a simpl wage dispute into a large scale class struggle. When the big in-dustrialists resorted to a lock-out, 600,000 Italian metal workers occupied the mills and carried on production themselves through their own elected 'shop committees'. They opened their safes and discovered secrets, so closely guarded, of cost prices and profits . . They won the fight: they were given—on paper, anyway—the right to check up on management, and 'workers' control'.

The peasantry showed no less fighting spirit. Returning from the trenches, they demanded the 'division of the land' which had been promised them, and, when it was not

suffered from all the infantile diseases of leftism, refusing to attempt a united front with the Socialists, standing on the basis of ultra-leftism, and anti-parliamentarianism and thus dooming itself to isolation from the masses.

The revolutionary upsurge of the masses thus failed to overthrow capitilism. After weathering the storm by giving concessions to the workers and alism. easants, and having received a terrible shock, the capitalists began to prepare for their revenge against the workers. "In Genoa at the peginning of

April, 1919, the big industrialists and landowners sealed a holy alliance for the fight against 'bolshevism'. 'This gathering,' Rossi wrote, 'is the first step towards a reorganisation of capitalist forces to meet the threatening situation.' On March 7, 1920, the first nation-wide conference of industrialists was held at Milan, and the General Federation of Industry was created. An all-embracing and detailed plan of joint action was drawn up, covering everything in-cluding the strategy of the campaign against the labour unions. Shortly after, on August 18, the General Federation of Agriculture was formed. 'Industrialists and landowners will no longer enter the battle with scattered forces." (Fascism and Big

Business) For the purpose of fighting against the unions and the workers' organis-ations the big industrialists began to organise, arm and finance bands of thugs and hooligaus to fight against, the working class. Just as in Britain, capitalists had begun to subsidise Mosley and his gangsters. ... at the end of 1920, they furn-

ished Benito Mussolini the means to carry on in his paper, the "Popolo d'Italia, now a journal with a big circulation, a noisy campaign for naval and air armaments. In the issue of December 23, Mussolini announced that he was going to campaign 'for a foreign policy of expanpaign 'for a foreign policy of expan-sion'." (Fascism and Big Business). In the beginning these gangs were being used for the purpose merely of terrorising the workers and murdering the militant leaders of their organis-ations. But the economic situation went from bad to worse. In January 1921, there were 600,000 unemployed. The middle-class, the small shopkeep-ers, students, the professional classes, ex-servicemen, and the youth found themselves ruined and impoverished by

themselves ruined and impoverished by the economic crisis. They began to look for a way out of the agony and suffering which capitalism had imposed on them. Meanwhile, while the unions and other working class organisations continued to exist, the capitalists who were savagely attacking the standards of the workers and peasants and taking back all the concessions gained by their struggles, could not drive them to the starvation pittance which was neces-sary for the continued existence of the sary for the continued existence of the system. The capitalists saw the only way out in the destruction of the or-ganisations, rights and liberties of the working class. Mussolini was financed and helped to organise the Fascist

Party. Taking advantage of the cowardice and treachery of the Socialist leaders who failed to put forward a radical programme for power, the magnates of Big Business subsidised the Fascists put forward a demogogic captalist programme to suit the denands of the middle class. The middle class, failing to receive a lead from the workers and their organisations in sheer despair supported the programme out forward by the fascists. As Guerin explains the situation:

petty bourgeois were cast with those of the workers in greater numbers than ever before. When the metal workers occupied the factories in 1920, they had the sympathy of a great part of the petty bourgeoisie. But the Socialist party showed itself absolutely incapable of leading the revolutionary upsurge of the masses. Instead of placing itself at their head, it dragged in their wake. In Mussolini's own words, it did not know how 'to profit from a revolutionary situation such as history does not repeat'.''

Mussolini began to organise his thugs, with the full assistance of the monarchy, the Army, the landowners and capitalists. A veritable reign of terror was instituted against the masses. While the fascists were busy organising their murder raids against the workers and their organisations, the workers resistance was paralysed by their leaders. Mussolini and his hoodhuns were enabled to march against the workers with impunity, while their leaders preached the necessity to rely on the "State" and the Constitution, at a time when 'the police and the heads of the army and the state machine were giving every encouragement and support to the fascists.

It was in this atmosphere of workers confusion and demoralisation that the capitalists placed Mussolini in power to retain their organisations and rights. even if in an attenuated form, at the present time. But they will suffer the same fate as the Italian and German workers if they do not profit by their experiences. Capitalism in its decay breeds fascism and to support the capitalist class is to make certain its victory. Not only fascism but a super fascism will be imposed on the workers if capitalism is allowed to continue to exist. Only the building of a new Revolutionary Socialist party which has learned the lessons of the defeats of the workers in Europe can lead to a the workers in Europe can lead to a victory over the forces of fascism and reaction; the forces of capitalism. The advanced workers of Europe and Britain will find their way to the ranks of the Fourth International which alone can lead the toilers to a world of Socialism and peace, and thus guar-antee the impossibility of the recur-rence of the barbarism of fascism and war

if they had not he would have signed it just the same.

Hall alleged that the court case was instigated by an "allen political organisation" and that the strike committee had assisted "a paper financed by the Trotsky organisation.

This allegation was obviously directed against the Socialist Appeal and Workers' International League. It is entirely false and has not even a shred of truth in it.

Far from instigating the case against Hall, we have advised the miners PUBLICLY against such an action: firstly, on grounds of general principle-that the struggle against the trade union bureauracy can only be properly carried out inside the union itself; secondly, on practical grounds that it was unlikely they would win such a case through the

But the height of fantasy was reached when Yezhov-the personal friend of Stalin-who brought Yagoda

friend of Stalin-who brought Yagoda to trial was also shot and to crown it, the chief judge of all the trials, Ulrich, was shot after a secret trial! The trial scenes show men like Buk-harin, Radek, Sokolnikov and others confessing to be "agents of Hitler" under the leadership of Trotsky. Vyshinsky, the prosecutor, ex-Menshe-vik who opposed the Bolshevik Revol-uton is shown as a lynx-eyed defender

The Director of the Oslo airport at Kjeller, which Vyshinsky "established" vyshinsky, the prosection, exchement of the workers' conquests. Tukachev-sky, the outstanding military leader of the Red Army for years, is shown mouthing a speech which was in the turber 1935 until the 1st of May 1936. This was published in the world press. Konrad Knudsen, a Norwegian Labour M.P., at whose house Trotsky was a guest during his stay in Norway, tele-graphed Vyshinsky before the conclusion of the trial that it had been conirmed that no foreign or private plane anded at the Oslo airdrome in Decsonalities and the statements at these ember and that as Trotsky's host, confirms that no conversation could have taken place in Norway between Trotsky and Pyatakov. In view of the fact that the Director of the airport was a Government official; that the Norwegian Government have contact with the Red Army which | was a Labour government; that there training German Army officers. was a military guard at the airport But the agreement was made while Lenin was at the head of the Govern-ment. Stalin supported the agreement with his family testified that Pyataat the time. This is doubly true when is remembered that Trotsky denied meeting Pyatakov and issued two lists of questions to Pyatakov which were ublished in the world press. The fact that Vyshinsky did not put the detailed questions to Pyatakov proved onclusively that a cross examination of the testimony would have blown it o hell and that the trial was a care ully rehearsed frame-up to implicate ind discredit Trotsky. At the Dewey Commission of In-quiry into the Moscow Trials, dozens of official documents were produced and umerous statements were made well-known people not sharing Trot-iNDIVIDU sky's political ideas, which completely TROTSKY. lasted the statements of Pyatakov as As with Pyatakov, so with the other 'witnesses'' who "confessed?' to being n touch with Trotsky. On every count, the confessions insofar as it was posible to test them, were demonstrated the Dewey Commission as being abrications and lies. The final demonstration that the rials were a frame-up from beginning to end was given by the refusal of the to end was given by the refusal of the Stalinist government to lay charges prepared and who will be the foreagainst Leon Trotsky with the Nor-wegian Government and demand his extradition which they could have legally done, and which Trotsky pub-liely demanded. Since this would have meant a public trial in a Norwegian court, Vyshinsky was unable to follow this course. Had the charges been genuine and backed with any evidence at all, what better demonstration could at all, what better demonstration could

Stalin have given to the world working class, than to have had this proved by public trial in Norway? The failure to do so is the most convincing and damning proof of Trotsky's innocence and of Stalin's guilt.

The trials claimed to prove that on the basis of these incriminating wit-nesses and defendants that Trotsky

nesses and defendants that Trotsky had made an agreement with Hitler. THE FACTS ARE THAT IT WAS NOT TROTSKY, BUT STALIN WHO MADE SUCH AN AGREEMENT! From 1931 Trotsky in article after article and in several pamphlets warned of the dangers of Hitler's rise. He advocated a united workers' front of the German Communist. Party with the he German Communist Party with the Social Democrats. But Stalin instruc-ted the German Communist Party to have a united front with the Nazis, with Hitler, against the Social Democrats.

Pyatakov "confessed" that Trotsky informed him of extended discussions, he—Trotsky—had held with Hess. The facts are that it was not Trotsky but Molotov and Stalin who had extended discussions with Hitler and Hess. In the book "Mission to Mos-cow", under the date line November

actual trials made by Muranov. Krestinsky is shown confessing that under Trotsky's instructions he made contact with the German General Staff in 1921 and received 250,000 marks a year for espionage activity. What are the facts about the per-

trials?

It is true that the Russian Government made an arrangement of a military character with the German Government which was led by the Social Democrats. General Von Seecket did espionage, the mark was tens of mil-lions to the pound. Trotsky would have received the price of a box of matches for a year in exchange for the Soviet Union!

Why was Tukachevsky, who was tried and shot secretly, brought into the "public" trial, while people like Rakovsky were kept out? Because some of the accused, including Rakovsky confessed to being agents and Fifth Columnists on behalf of British Imperialism. Rosengoltz "confessed" that he had been an agent of the Brit ish Secret Service since 1926! Rakish Secret Service Since 1926! Rak-hovsky "confessed" that he had been an agent of Britain since 1924! jayev "confessed" that Bukharin stressed the need to make connections Jayev with England, as from the standpoint of the "Fifth Column"... "the most feasable proposal was a British pro-tectorate ...." And so on, and so on. tectorate .... " And so on, and so on. If the section of the confessions which "proved" these men to be paid agents in the pay of British imperial

ism are rejected by ex-Ambassador Davies and by Warner Bros., what makes him accept the confessions that

makes num accept the contessions that they were agents of Hitler? Despite the statements of the char-wonen of the G.P.U., including D. N. Pritt, practically no documents were entered into the court records as sub-stantial evidence in the trials. Davies admits this in his hook. But to prove admits this in his book. But to prove a connection with Trotsky, the "con-fessors" had to claim that they met Trotsky outside Russia. For the first time it became possible to check up on the veracity of the "confessions".

Thus Piatakov stated that in Dec-

, 1940, Davies wrote: Molotov and his staff of sixty-

five in number left Berlin today after having had extended discus-sions with Goring and Hess and other industrial experts and after a second long conference with Hitler and Ribbentrop. The official communique gives no actual light what occurred except that 'it led to agreement on all important questions interest to Germany and the Soviet Union'.

Remember how Von Ribbentrop was feasted and wined with his staff in Moscow when Poland was being carved Remember the beaming smile on the newsreels of that meeting. It was not Trotsky, but Molotov who said "fascism' is a matter of taste" It was not Trotsky but Stalin who said that the unity of Hitler Germany

So with every crime that Stalin has charged to Trotsky. It was precisely Stalin who carried out the crime. Stalin charged Trotsky with advocating and carrying out acts of indiv-idual terror. The facts are that it was Frotsky who was murdered by an agent of Stalin-Jacques Mornard. It was the Stalinist together with the fascist press who 'applauded Trotsky's assassination. So was Trotsky's son, Sedov killed by the gunmen of the G.P.U.; so were 8 of his secretaries, one after (Communist Party, (although not yet the other. forthcoming, they occupied the coveted soil. A governmental decree sanctioned the fait accompli: on condition that they organise themselves into co-operatives, they obtained the right to remain four years on the lands they had spontaneously occupied (Visochi decree, September 2, 1919). The tenant farmers also succeeded in improving the terms of The agricultural day their leases. labourers formed strong unions, the famous 'Red Leagues', backed up by rural communes, won over to socialism, which had become so many proletarian fiefs. They bargained with the great landowners as one power with another, forcing from them union agreements, etc."

By their occupation of the factories he workers demonstrated their desire finish capitalism once and for al and to take power in order to do so But the Labour and T.U. leaders sabotaged the struggle of the working class; ordered the workers out of the factor-ies and exhorted the workers to stick to "constitutional" means in the struggle against capitalism. In face of the revolutionary offensive of the working class, the capitalists were powerless to resist. But the Socialist leaders, curbing and breaking the movement of the masses, saved capitlism in Italy from destruction. The

The film is aimed against the revolutionary movement of the working class. It will assist the campaign of caction which will be, and is being, directed against revolutionary workers particularly the Trotskyists, as "fifth columnists" in the coming period of lass struggles.

There is an old saying among the British working class: when the boss pats our leaders on the back it is time expect a stab in the back from the leaders. That is why this film has been produced: because Stalin and the **nat-ional** "communist" parties have long left the socialist path—have long been administering the stab in the back.

administering the stab in the back. The workers must protest against this false film. If the capitalist get away with this, we can expect a flood of a similar type of reactionary pro-paganda films—glorifying the rich man who has a soul of gold, and vilifying the revolutionists who aim to change the social system the social system.

"After the war a rather large section of the battered middle classes placed their hope in socialism. In

#### Arrests Outside Cinema

The lying film "Mission to Moscow" s now showing at Warner's Cinema Leicester Square and at the Regal. Marble Arch, London.

Marble Arch, London. From 11 a.m. when the first show-ing was made on Friday, 23rd July, until the last showing ended at 10 p.m. on Saturday, members of Work-ers' International League picketed the cinema with posters and sold a special "Mission to Moscow" folder. Some of the comrades, stood selling for 8 and 10 hours without a break. So each day 10 hours without a break. So each day since the film has been shown, our comrades have been exposing the fake haracter of the film in their free

7.000 copies of the penny folder were old on the first week-end outside the inemas.

The posters attracted the attention of thousands of passers by and the clear slogans of our comrades "Mission to Moscow Falsifies History—Read the Truth", etc., interested the mass of cinema goers in what we had to say. Several of our comrades were as-saulted by hysterical Stalinist men and women (a miserable bunch of middle class patriots) with the object inuidle class patriots) with the object of creating a scene and attracting the notice of the police. Out of the huge crowds which collected as a result of these attacks, hundreds of people bought the folder exposing the film. Each day a few of our comrades have been arrested by the uplice and huged een arrested by the police and lugged off to the police station on a charge of "obstruction". The Stalinists sell-

pitalist courts.

In our view, had the Cortonwood miners spent the time, energy, and money on conducting a campaign throughout the Yorks coalfield to make their case known they would have gained far more in every manner than they have by this court case. They would have solidified a wide bloc of progressive miners who are in favour of a new administration at Barnsley and strengthened the union and the working class.

If the miners did not know it before they certainly know it now: "the law I= the law but it is not always just."

Let us hope that they will draw the practical conclusions from their experience and get down to the task of training fresh forces in the district, contacting the other branches in the area and conducting a campaign to ond the system of life jobs in the union and replacing it by the election

of paid officials every two years.

of a higher education, at the expense of the blood and sweat of working vouth.

Whilst the misleaders of the labour and trade union movement carry out the most vicious attacks against the rights and freedom of the workers, they make no serious attempt to expropriate the coalowners and the capitalist class. Not a single important step has been taken to curtail the capitalist property rights, or the rights to bleed the workers for huge profits.

OUT of the Labour movement with he Bevin's who propose such victous steps against working class youth!
